EXPERIENCE

MyTradeZone

QA Automation Engineer

September 2023 – Present

- Executed 150+ test cases across functional, API, regression and UI testing – leading to a 35% reduction in post-build release bugs.
- Created and maintained test scripts using TestRail and Cypress, improving testing efficiency by 40% over manual cycles.
- Detected and logged 300+ bugs with a high resolution rate through close collaboration with the development team.
- Contributed to cross-functional sprint planning, enhancing QA coverage and release predictability.
- Supported B2B marketing efforts by launching marketing campaigns in Hong Kong and Vietnam.

EDUCATION

Masters in Bioinformatics

CGPA: 7.4/10

Gujarat University

2022 - 2024

Bachelors in Biochemistry

CGPA: 8.7/10

MG Science Institute

2019 - 2022

Secondary Education

78%

Doon Public School

SKILLS

Coding languages

 JavaScript  Python  Bash  JSON/YAML

Frontend

UI Testing Cross-browser Testing Exploratory Testing

Backend

API Testing (REST & GraphQL) Regression Testing Risk-based Testing

Devops

CI/CD Docker (QA Env) Jenkins Sentry LogRocket
